ERECTION WORK

BUILDING STRENGTH. | RAISING EXCELLENCE.

At GTPPL, we deliver safe, precise and efficient erection solutions for complex industrial projects. Our experienced team, advanced equipment and robust execution process ensure timely and high-quality erection of structures and equipment across diverse industries.

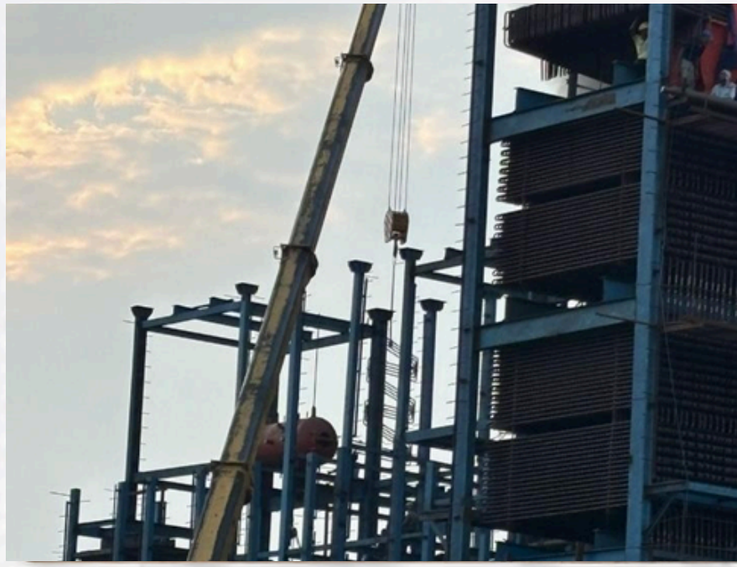
STRUCTURAL ERECTION
Steel structures, platforms, galleries and support systems.

EQUIPMENT ERECTION
Boilers, vessels, tanks, ducts and heavy equipment.

PIPING & DUCT ERECTION
Process piping, ducting and insulation with precision alignment.

HEAVY LIFTING & HANDLING
Safe lifting and positioning using advanced lifting equipment.

OUR ERECTION EXPERTISE



SAFETY FOCUSED | QUALITY ASSURED | SKILLED WORKFORCE | ON-TIME DELIVERY

STRONG FOUNDATIONS. STRONGER FUTURES.

FOLLOW US ON

We execute complex erection projects with precision, safety and efficiency. Our skilled team and advanced equipment ensure strong structures and reliable results.

CHIMNEY, STACK & STRUCTURAL INSTALLATION

COMPLETE STRUCTURAL INTEGRATION WITH SAFE & PRECISION EXECUTION

GTPPL specializes in the erection of industrial chimneys, structural pipe racks, equipment supporting structures, and Balance of Plant (BoP) systems. Our experienced team ensures accurate alignment, heavy lifting, precision installation, and adherence to the highest safety and quality standards throughout every stage of project execution.

INDUSTRIAL CHIMNEY

INDUSTRIAL CHIMNEY INSTALLATION

TURBINE & AUXILIARY EQUIPMENT INSTALLATION

PIPING STRUCTURE

PIPE RACK & STRUCTURAL ERECTION

OUR CAPABILITIES

- INDUSTRIAL CHIMNEY INSTALLATION
- PIPE RACK & STRUCTURAL ERECTION
- HEAVY EQUIPMENT PLACEMENT
- TURBINE & AUXILIARY SYSTEMS INSTALLATION
- SAFE COMMISSIONING SUPPORT

From precision fabrication at our yard to safe and efficient erection at site, we deliver end-to-end solutions with quality, safety and commitment.

PRECISION FABRICATION
Built with accuracy and quality

SAFE & EFFICIENT ERECTION
Expert handling with zero compromise on safety

STRUCTURAL INTEGRATION
Strong frameworks for reliable performance

QUALITY & SAFETY ASSURED
Adhering to highest industry standards

PROJECTS THAT POWER INDUSTRIES
Delivering strength, reliability & value

EXPERIENCED TEAM
Skilled professionals driving every project

ADVANCED EQUIPMENT
Modern machinery for precision & efficiency

ON-TIME DELIVERY
Committed to schedule & timely execution

SAFETY FIRST
Zero compromise on safety at every step

CLIENT SATISFACTION
Quality service leading to lasting partnerships

STRONG FOUNDATIONS. POWERING PROGRESS.

BELT CONVEYOR (UPTO 5000TPH)

The goodwill, we have earned in the market is owing to Belt Conveyors that is manufactured using latest technology and best quality raw materials in accordance with the defined quality standards.

Ash is continuously removed using a water filled belt conveyor. Popular system for boilers where soft solid fuels like Bagasse is burnt and the ash does not form into hard big clinkers.

SUBMERGE BELT / CHAIN CONVEYOR

BUCKET ELEVATOR

Bucket elevators, reinforced with textile or steel Cord, ensure easy transport of materials, even to the highest of conveying heights. Their virtually noiseless operation is an additional benefit.

BUCKET ELEVATOR

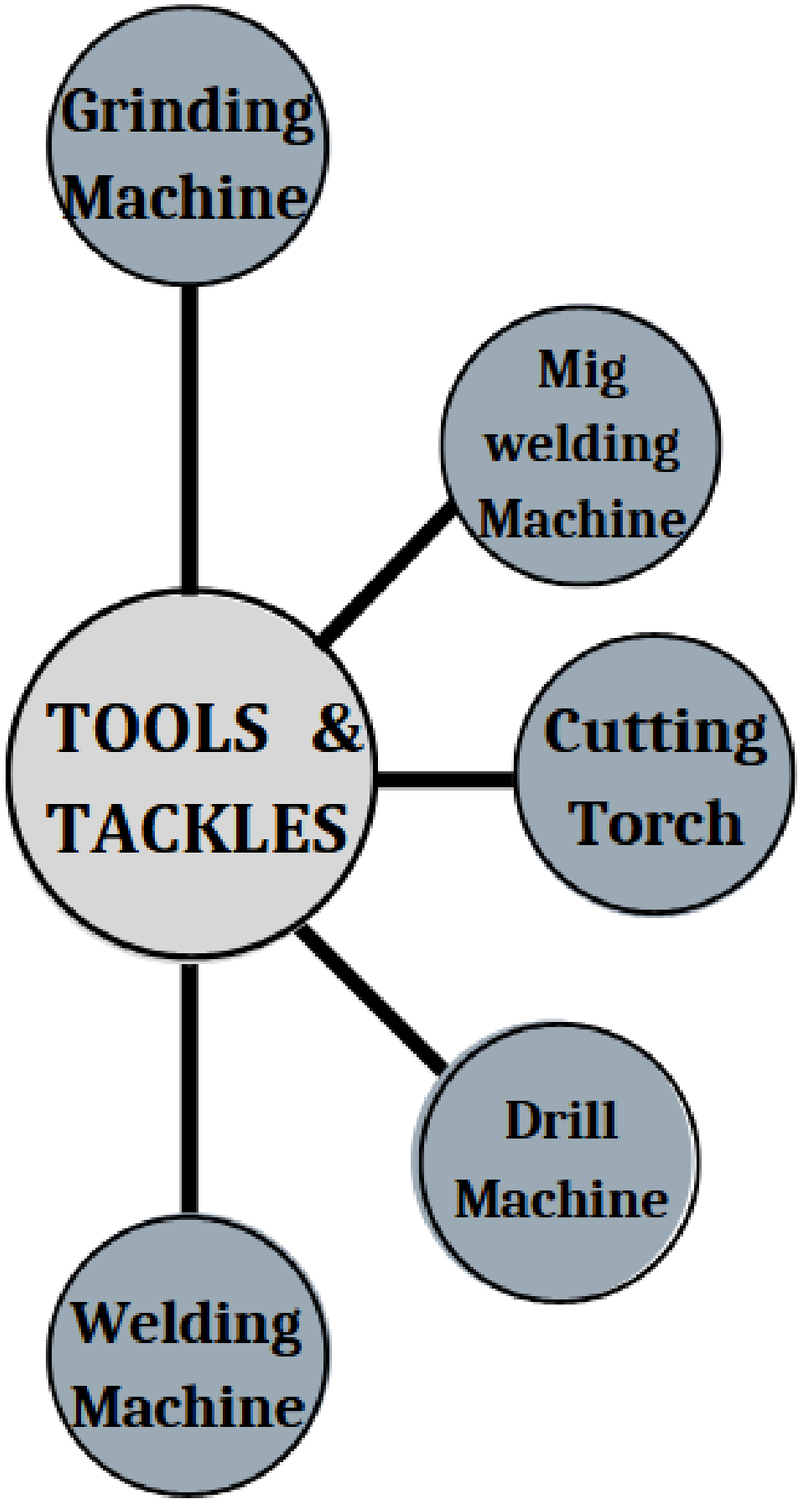
SINGLE STRAND CHAIN CONVEYOR

Chain conveyor is a mechanical material-handling system driven by one central chain line, featuring simple construction, minimal moving parts, and high heat or abrasion resistance.

DOUBLE STRAND CHAIN CONVEYOR

LIFTING EQUIPMENTS

- Chain Blocks
- Sling Rope
- Winch Machine
- Crane
- D shackle
- Hydra
- Hydraulic Jack
- Lifting Belt



Grinding Machine
Mig welding Machine

CONTACT US

WHY CLIENTS CHOOSE GTPPL?

PROVEN EXPERTISE
Delivering engineering excellence across industries.

RELIABLE PARTNERSHIP
Building long-term relationships based on trust.

TIMELY DELIVERY
Committed to quality, safety and on-time execution.

CUSTOMER FOCUSED
Tailored solutions that drive performance and value.

OUR PRESENCE

- Delivering excellence across India and around the world.
- Strong presence in Power | Process | Industrial sectors with successful projects across India and international markets.
